

## Academic Year 2024/2025

### FRAMEWORK PROGRAM OF SUMMER STUDENT PLACEMENT FOR THE SECOND YEAR STUDENTS OF DENTAL MEDICINE PROGRAM

After the completion of the second year of the program the student is obliged to undertake **practical placement within the scope of assistance for a dentist** in dental outpatient departments or dental offices.

Head of the dental department/office determines a detailed scope of duties and practical placement schedule and supervises student's work. Direct supervision over the practical placement may be entrusted to an authorised nurse, a certified dental hygienist or a dental assistant.

Student's absence may be excused only by a documented sick leave. If the student is sick for more than a week, it is necessary to extend the summer student placement by a due period.

The student is obliged to keep an internship log.

The completion of the practical placement is confirmed by the supervisor and approved by the head of the dental department/office by making an entry into the internship log.

#### PURPOSE OF THE SUMMER STUDENT PLACEMENT

is to familiarise the student with a full scope of activities related to dental assistance and care of dental patients treated in dental departments/offices, active assistance in medical and dental procedures, acquiring knowledge about sterilization and maintenance of dental instrument, keeping patients' medical records as well as learning about administration work, preparation of a workplace for a dental surgeon, and preparing the set of medicines and instruments.
