

## Rules on recognition of language certificates in the admission procedure

The following rules for the conversion of certificates into points apply to candidates with a secondary school leaving certificate obtained after passing the matriculation examination, applying for admission to such studies, for whom the result of the matriculation examination in a foreign language is one of the eligibility criteria for candidates. A prerequisite for the recognition of the certificate by the university is that the candidate concerned has been exempted from the matriculation examination in a foreign language on the basis of that particular certificate.
